INTRODUCTION

MILLHILLS.—It was in the year 1897 that the foundation was laid, of the Millhills herd, by the late Mr. Duncan Stewart, father of the present owner. Great care was given to the purchase of the early females, and to-day justification is seen in the descendants. The greater portion of the females in the herd to-day are descended from stock purchased in the early days. Stock bulls were bought from Marr of Uppermill and from Duthie of Collynie. Since 1908, there had always been one or more Collynie stock bulls in use at Millhills, until the last one, Collynie Elect, died a few years ago.

Among the first of the Collynie bulls to be used was Captain of the Mint, and one of his best sons was President of the Mint, a bull of the "Stella" family; "Broadhooks," which came from the Beaufort herd, are still to the fore.

President of the Mint left his mark in the Cluny herd, siring many champions and prize-winners at Perth. Scottish Farmer and Collynie Cruickshank were other Collynie bulls that followed, but Cupbearer of Collynie, purchased in 1912, was the one that left his mark, not only in the Millhills herd, but throughout the breed. During his long reign at Millhills, he sired 70 bull calves which sold at an average of 750 guineas. He sired two Perth champions, both record-priced bulls of their day—Pride of Millhills, which sold for 3100 guineas in 1918, and Millhills Comet, which sold for 6600 guineas in 1920. That record stood for 25 years.

There were other famous sons, such as Clipper Favourite, used at Sanquhar; Marquis of Millhills, used at Collynie; and Millhills Macebearer. But the two that were perhaps the best known were those that were used in the early days of the Calrossie herd—Millhills Rothes King and White Prince. Both these bulls stamped their goodness in their descendants.

The daughters of Cupbearer bred as well as the sons, and from them came such famous bulls as Millhills Charming King and Millhills Rosicrucian. Charming King, after winning his class at Perth, was sold for 1700 guineas to Mr. A. J. Marshall who, in turn, sold him to Señor Bernard Duggan of Sittyton fame in Argentina. There, this great bull did good service for many years and, in the years 1932 and 1933, 37 bulls by him were shown at Palermo—every one a prize-winner. Rosicrucian made his name in the Coonong herd of Mr. M'Caughy, Australia.

Collynie Mandate was another bull that left his mark, this time in Canada, through his Perth champion son, Millhills Ransom.

In recent years, Collynie Elect bred some exceptionally well-fleshed, wide, strong cattle, and his daughters have been of great value in the herd. All but one or two of them have been retained, and they have developed into wide, deep cows that milk well. Two that have been recorded have topped the 800 gallon mark, and are Registered with the Society.

To carry on the Collynie blood lines, two sons of Lawton President Roosevelt, the massive son of Collynie State Express, were used extensively. Both were from Calrossie-bred dams that carried a strong infusion of the blood of the great Collynie Royal Leader. The first to be used, Ascreavie Democrat, was from a daughter of Calrossie Randolph, and he left some wide, typical cows at Millhills. The next was Kinsman, from a Glas-tullich Clipper cow of the Naemoor Zoe family, himself by Calrossie Reliance, a son of Calrossie Randolph. Kinsman has left that bone and size so essential to the breed, and his daughters are proven breeders.

Calrossie Highland Leader is now the senior stock bull, and this great son of Kirkton Baronet has made his name by siring the 1951 Perth champion. He is a bull of great substance, with a magnificent head, and his breeding is of the best. He shows a great concentration of the blood of Collynie Royal Leader.

Such are the blood lines, therefore, of the cattle now at Millhills, that no greater concentration can be found of all that was good in the great Collynie herd of the master breeder, the late Mr. William Duthie.

CRIEFFVECHTER.—The farm has been in the hands of the Dron family since 1825, and the Shorthorn herd was founded in 1861 by the purchase of Mysie 7th, by the Cruickshank-bred Indispensable. The first Maiden was purchased in 1894, and these two families have worked faithfully and well for four generations of the Drons.

The Mysie family has been entered in the Herd Book for 29 generations—18 of which have been bred at Crieffvechter.

Bulls from the Crieffvechter herd have been shown at Perth regularly since 1870. In 1901, Golden Arrow, by the Marr-bred Golden Gift, made 250 guineas, then an all-time record for Perth; he thereafter made 750 guineas in Argentina, another record.

In 1911, Princely Favourite won 1st and made the top price of 660 guineas to go to the Beaufort herd, where he bred well for many years. There was no championship in those days. Then, in 1919, the herd won the reserve group of three prize.

In 1917, Golden Charm sold to the Cudham Court herd for 1050 guineas. There he made a great name as a breeder, his first two crops of calves netting 16,000 guineas. Macebearer, Captivator, Economist, and Benefactor all proved their worth in the early 1920's. The last-named was grand-sire of Calrossie Randolph.

Mr. W. D. Dron, present owner, has had his full share of triumphs. He began on his own account in 1925, and in twenty-five years' showing at Perth February Sales, his herd has won 46 prizes, including a supreme championship, senior championship, female reserve championship and, of course, the Herdsman's Cup. In no single year has the herd failed to win an award and, as the herd is restricted to about twenty breeding females owing to the limits of the farm, this is quite an achievement.

CONDITIONS OF SALE

1. The Cattle will be exposed separately according to the numbers in the following Catalogue. The Auctioneers reserve the right to refuse any bid without assigning any reason. The highest offerer of each lot will be preferred to the purchase (subject to Article 3)—each offer exceeding the former by at least one guinea.

2. The pedigree of each animal is guaranteed to be correct and registered or accepted for registration in Coates' Herd Book by the person whose name appears as the Exposer, but every animal is sold subject to all faults otherwise, with the exception that if a bull has only one Testicle down, the Owner must make intimation to this effect in the Catalogue. No liability whatever is undertaken by the Auctioneers for the statements appearing in the Catalogue or made at the Sale. The Exposer who supplies such statements is alone responsible for any error or mis-statement.

3. The Exposers reserve the right to fix a reserve price, and to announce same before the bidding begins or during the time of the bidding or at the conclusion thereof. The right to bid by or on behalf of the Seller in terms of the Sale of Goods Act, 1893, is expressly reserved. Every animal must be the *bona fide* property of the Exposer at the time of Sale.

4. Immediately after each purchase is declared, the risk of the animal shall be exclusively with the Buyer, and it is declared that until a settlement shall be made in terms of these Conditions the delivery of the animal shall be suspended. The right of property shall not pass until the price is paid.

5. Immediately after the Sale all lots must be paid for in cash to the Auctioneers. The price being paid, each lot shall be taken away at the Buyer's expense within one day after the sale thereof. Lots shall only be removable from the Auctioneers' possession on a written order from their clerk, and any lot removed in contravention of this condition may be recovered *brevi manu* by the Auctioneers.

6. Should any Buyer fail to pay for and remove his purchase in compliance with the above Conditions, the Auctioneers in their option may either (a) sue the Buyer for the price and interest thereon at the rate of *Six per Centum per Annum* and for the keep of, and any other expense incurred by them in connection with such purchase, or (b) re-sell the Lot either publicly or privately and recover from the defaulting buyer the deficiency (if any) attending such re-sale and interest thereon as aforesaid together with the keep and all other expenses. In either case, the Auctioneers shall have the right to sue at their own instance without the consent of the Owner or Consigner, and no defence whatever in such action shall be competent to the Buyer who shall have recourse against the Owner or Consigner alone.

7. If any animal be sold with the option to "Test," such condition shall not operate to suspend the sale or the passing of the risk but shall have effect only as follows:—

- (a) The condition shall be provable only by entry in the Auctioneers' Sale Roll.
- (b) The Purchaser may require the Intradermal or Subcutaneous Test for Tuberculosis. The Purchaser may also require the animal to be submitted to an Agglutination Test for Contagious Abortion at a Laboratory approved by the Ministry of Agriculture, and to a test for John's Disease with the biological product known as Johnin. Notice in writing of the intention of the Purchaser to carry out such tests must be given to the Auctioneers before, or immediately after, termination of Sale.
- (c) The test shall be made by a Veterinary Surgeon to be mutually chosen between Buyer and Seller or, failing their agreement, to be chosen by the Auctioneers.
- (d) The test or tests shall only be made when the animal is (in the opinion of the chosen Veterinary Surgeon) in a fit state for testing. The time for testing shall be limited to three weeks after Sale, with power, however, to the Auctioneers to extend the period of testing from time to time if they, after hearing the chosen Veterinary Surgeon, deem such extension reasonable.
- (e) The declaration of the chosen Veterinary Surgeon that the animal has been duly tested and the result of his test shall be final and binding on both Seller and Buyer.
- (f) If the animal be so declared not to have passed the test, the Buyer shall have the right to require the Seller to re-purchase the animal at the price of the original sale. Such requisition shall be notified in writing to the original Seller, and from the date of receipt of such notice the risk and expense of the animal shall be transferred to him.
- (g) In any case where the option to test is exercised, the Auctioneers shall be entitled to retain the price until the result of the test is declared.
- (h) The expense of any such test or tests shall be borne by the Purchaser.

8. Should an Exposer wish to warrant a bull as being a good server and stock-getter or such other qualified warranty as the Exposer may wish to give, such warranty shall be included and shall form part of the description of the bull as shown in the printed Catalogue. Should a warranty of good service and stock-getter be given, and should it be established subsequent to the Sale that the bull is incapable of service, or while capable of service is incapable of getting stock, a Purchaser shall be entitled, within sixteen weeks from the date of the Sale, to intimate such incapacity to the Vendor, and if such incapacity shall be proved by a Certificate of a Veterinary Surgeon mutually chosen, the Vendor shall be bound to accept delivery of the bull and refund the Purchaser the full purchase price of the bull. To establish a Claim under this condition, the Purchaser must give notice of his claim within sixteen weeks of the Sale. Should the Purchaser and Vendor not agree upon the appointment of a Veterinary Surgeon to examine the bull, the Auctioneers shall appoint a Veterinary Surgeon for this purpose and shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid. In his certificate the Veterinary Surgeon must state that he has examined the bull, that its impotence or incapacity is not due to injury suffered or illness contracted since the purchase, and that he has also examined the cows or heifers upon which the bull has been tried and found them in a normal breeding state or condition, and he shall give his reasons for declaring the bull ineffective and incapable of getting stock. Notwithstanding the right of the Purchaser to return the bull to the Vendor on the ground of impotency or incapacity, the Vendor shall in no case be liable under this condition for a sum exceeding the amount for which the bull was sold (plus any expenses which may be awarded by the Auctioneers against the Vendor in terms of this paragraph) less its saleable value at the date of the Veterinary Surgeon's Certificate. In respect of bulls purchased for export, no claim under this Article shall be valid unless made prior to the shipment of the bull or within sixteen weeks of the Sale whichever is the earlier date.

9. All cows and heifers that are stated in the Catalogue as having been served or artificially inseminated not less than twelve weeks before the date of Sale, or stated as having been running with a bull between dates (the later of which is not less than twelve weeks before date of Sale), will be guaranteed to be in-calf to the service date or between dates and to the bull stated in the Catalogue, unless any alteration is announced at the time of Sale. Heifers which have not had a calf and which are sold unserved shall be so guaranteed. All claims which may be competent under this Condition must be intimated to the Auctioneers within sixteen weeks of the Sale, but in respect of females purchased for export a claim must be made prior to the shipment of the animal or within the said period of sixteen weeks whichever is the earlier date. To establish any claim under this Condition the Purchaser and Vendor shall mutually agree upon a Veterinary Surgeon to examine the animal, and failing agreement a Veterinary Surgeon shall be appointed by the Auctioneers. In his Certificate the Veterinary Surgeon must state that the condition of the animal was not due to any injury or disease contracted since the Sale. Should a claim be established and made as a result of the Veterinary Surgeon's Certificate the Vendor shall be bound to accept delivery of the cow or heifer (as the case may be) and refund to the Purchaser the full purchase price of the animal which shall be at the Vendor's risk and expense as from the date of the notification to the Vendor of the Veterinary Surgeon's decision. Failing agreement between the Vendor and the Purchaser the Auctioneers shall decide by which party the Veterinary Surgeon's fees and expenses shall be paid.

10. No undertaking of the Auctioneers or their servants to take charge of any animal after the Sale or to forward it to its destination shall be held to impose upon the Auctioneers any legal obligation or vitiate any of the foregoing conditions.

11. If any dispute—other than (a) a dispute or question relating to the conduct of the Sale and (b) a dispute for the settlement of which provision has been made in terms of these Conditions—shall arise regarding any Shorthorn animal registered in Coates' Herd Book and sold at this Sale, such dispute shall be referred to the Council of the Shorthorn Society of Great Britain and Ireland as sole Arbiters for settlement, and the decision of the Council shall be final and binding on all parties to the dispute.

12. Without prejudice to the foregoing Conditions of Sale it is hereby expressly declared that the Exposer by selling and the Purchaser by purchasing any animal in terms of the Conditions of Sale shall be bound by the above Conditions of Sale and shall be bound, where a dispute is referred to a Veterinary Surgeon, to accept the verdict or decision of the Veterinary Surgeon as final and binding on both Exposer and Purchaser. Neither party shall have any recourse to law in respect of said dispute otherwise than on the ground of fraud.

13. The Auctioneer is appointed Judge of the Sale, to whom are hereby submitted all disputes and differences of any kind which may arise at and in relation to the Auction, either between Exposers and Offerers or among Offerers themselves. His decision shall be final and binding on all parties.

AUCTION MARKET OFFICES,
PERTH, 1952.

SELLERS' CONDITIONS OF SALE

All bull calves 10 months of age and over at the date of Sale will be sold with a guarantee to leave stock. Any buyer wishing to make a claim under this guarantee must intimate such through the Auctioneers before the end of the month of January in the year following the Sale. The seller will then appoint a qualified veterinarian to carry out a semen test. The decision of this person shall be regarded as final. In respect of bulls purchased for export no claim shall be valid unless made prior to shipment.

All animals will become the property of the buyer at the fall of the hammer, but will be sold subject to any test required, which must be carried out within four weeks of the date of Sale by a Veterinary Surgeon mutually chosen.

All animals will be kept free of charge, at buyer's risk, for four weeks following the date of Sale. Thereafter, any bull sold for below 400 guineas or any heifer sold for below 200 guineas, will be kept, if the buyer so wishes, for a charge of £2 per week.

Owing to the outbreak of foot and mouth disease in Great Britain and to the consequent import restrictions imposed by overseas countries, sellers will keep, free of charge, any cattle purchased for such countries, until restrictions upon the importation of cattle to such particular country, for which the animal was purchased, are lifted. Upon the lifting of these restrictions, charges will be made as above, for the further keep of any animal.

THE CATTLE WILL BE PARADED AT 11.30 A.M.

LUNCH FROM 12.15 P.M.

Collynie Elect was purchased at the second last Collynie Sale for 1800 guineas, a very high price at that time. He was used throughout his life in the Millhills Herd, and all his daughters were retained. His sons include Millhills Woodman, reserve supreme champion at Perth in 1940, and sold for 1100 guineas; Millhills Xtra, the great sire in the herd of Señor Bernard Duggan in Argentina, which was sold for 70,000 pesos; Millhills Zenith, reserve junior champion at Perth in 1943, and used with great success by Mr. Pitcaithly, Dron; Millhills Acme, second reserve champion at Perth in 1945, and sold for 2500 guineas; Millhills Climax, junior champion at Perth in 1946, and sold for 2800 guineas to Mr. Honeyman, in whose hands he sired another junior champion and many other good breeding bulls.

Aldie Conqueror—used at Collynie, and one of the great sons of the breed. His other famous son, Collynie State Express, sired the father of Kirkton Baronet.

Collynie Eliza 15th—a beautiful roan cow of a famous family.

Kinsman was purchased at Perth from his breeder for 900 guineas, was a bull of great scale and substance, and was used during his life at Millhills. Nearly all his daughters have been retained in the herd. Of his sons, Millhills Decider, after selling at Perth in 1947 for 1700 guineas, made 50,000 pesos in Argentina; Millhills Despot, junior champion at Perth in 1947, was sold for 3300 guineas to Pittodrie; Millhills Elect and Millhills Fortune both sold for 1000 guineas at Perth; in 1950, Millhills Glorious and Millhills Goldmine were the only two bulls by the same sire to win their classes at Perth, and the former made 30,000 pesos in Argentina; in 1951, Millhills Highlandman was reserve junior champion, and sold for 2000 guineas to Mr. E. Pryce, New Zealand; and, in 1952, another son, Millhills Jubilee, won his class, and was sold for 3800 guineas.

Lawton President Roosevelt, winner of his class at Perth, was used at Calrossie for a number of years, and bred well. He sired Calrossie Supremacy, the 2000-guineas bull that left his mark on the breed.

Glastullich Clipper Kay—a member of a grand Naemoor family that has bred consistently well at Calrossie.

Calrossie Highland Leader stood 2nd in his class at Perth, and was bought for the Millhills Herd at 2100 guineas. He has bred well, and among his sons are: Millhills Fashion, sold for 3400 guineas in 1949; Millhills Gunner, stock bull at Farnington, and sold for 900 guineas in 1950; Millhills Hurricane, a class-winner at Perth in 1951, and sold for 1000 guineas, afterwards making 51,000 pesos to Major Powell, La Chacra, Argentina. In that same Sale was another son, Balbithan Highland Leader, supreme champion at Perth, and sold for 3000 guineas to Mr. E. Killen, Australia. Another son, Millhills Hotspur, was sold for 1500 guineas to Captain MacGillivray. Of his daughters, Scottish Buttercup 52nd was purchased by Mr. Moralee for 600 guineas and, as a cow, she was supreme champion at the Great Yorkshire Show in 1951.

Kirkton Baronet is now world-famous as one of the great sires of the breed, and the bull that left such great heads on his offspring.

Calrossie Kathleen Broadhooks is the dam of Calrossie Anzac, a good-breeding son of Calrossie Randolph in Argentina.

Strathallan Conquest won many prizes at Shows throughout Scotland. He was very gay and stylish, with correct coupling and straight lines. He bred extremely well, and his progeny are giving a good account of themselves both here and abroad. They include Crieffvechter Mysie 52nd, reserve female champion at Perth in 1946, and sold for 1500 guineas; Crieffvechter Mysie 59th, 1st at Perth in 1947, and sold to Ballathie for 480 guineas; Crieffvechter Boxing Day, 2nd at Perth in 1946, and sold in the Argentine for 28,000 pesos; and many others.
